## **Speier Endorses Jerry Hill in Assembly Race Endorsement Could Be Key Factor with One Week to Election**

Congresswoman Jackie Speier endorsed Supervisor Jerry Hill in his race for State Assembly over the weekend. It is a key endorsement leading into the final week of the campaign.

“I am pleased to support Jerry Hill for Assembly and urge all San Mateo County residents to join me in voting for him,” said Speier. “Jerry Hill has a proven record of accomplishment on important issues facing our County including healthcare and protecting the environment. His experience and commitment are needed in Sacramento as the state faces very difficult challenges. Jerry Hill is my choice for State Assembly.”

Hill was thrilled with the endorsement. “I feel very honored that Jackie Speier would lend her name and support to my campaign,” said the Supervisor. “Jackie Speier is a wonderful role model and courageous elected official who has served the people of San Mateo County so ably as a Supervisor, State Assembly member and State Senator. This endorsement is a terrific boost to my campaign.”

The endorsement could be the key to putting Hill over the top in a tight three way race for the State Assembly seat now held by termed out Assemblyman Gene Mullin.

“With turnout expected to be very low, and all three Democrats very similar on the issues, we believe this key endorsement can be the deciding factor for many voters still undecided,” said Hill campaign consultant Ed McGovern. “We plan to let every last voter know, through every medium possible, that Congresswoman Speier has endorsed Jerry Hill.”

Congresswoman Speier joins a long list of key San Mateo County elected Democrats endorsing Hill which include Congresswoman Anna Eshoo, Assemblymembers Gene Mullin, Fiona Ma and Ira Ruskin and numerous County Supervisors, Mayors and City Councilmembers.

The race has one week to go. Election day will be Tuesday, June 3<sup>rd</sup>.
